## QUART 2000 WEDGE GATE VALVE

## QUART 2000 WEDGE GATE VALVE

Made from ductile cast iron or ductile cast steel.
For water and gas.
Made according to the standards: DIN 3352-PN 16-4 B
For water DIN 3230 part 4, for gas: DIN 3230 part 5
Pressure tests made according to DIN-DVGW for water and gas: DIN 3547 part 1

## TECHNICAL DATA

QUART 2000 wedge gate valve type A

| Item | Part | Material |
| :---: | :--- | :--- |
| 1 | body | Ductile cast iron GGG or cast steel GS-C 25 N |
| 2 | wedge | Ductile cast iron GGG-50 |
| 3 | wedge rubber sealing | NBR or EPDM |
| 4 | stem nut | brass |
| 5 | stem | 1.4571 or 1.4021 |
| 6 | cover seal | NBR |
| 7 | cover | Ductile cast iron GGG or cast steel GS-C 25 N |
| 8 | sliding disk | polyamide |
| 9 | o-ring bushing | G-CuAl 10 Ni |
| 10 | o-ring | NBR |
| 11 | scraping gasket | NBR |
| 12 | locking screw | CuZn 40 Pb 2 |
| 13 | o-ring - scraper | NBR |
| 14 | screws | A2 |
| 15 | o-ring bushing | polyamide |

Flow Control

QUART 2000 WEDGE GATE VALVE

## THE WEDGE GATE VALVE STRUCTURE

- Full non-socket flow.
- Stem made from stainless steel, with straight thread, with hole for connection with the casing.
- The sealing bushing with o-rings, totally separated from the utility /water or gas/.
- The scraping gasket and o-ring scraper - prevent the contaminants getting into the sealing bushing, both from the utility flowing through and from the soil.
- The wedge entirely rubberized, including the inside surfaces, long guiding the wedge with little clearance in the guide,
double sealing lip applied.
- Screws made from A2 material, entirely sunk in the body, additionally protected with silicone layer.
- The structure of type A wedge gate valve - standard make, with possibility of entire dismantling the gate valve without damaging the particular elements (upon cutting off the utility).
- In type B wedge gate valve, the stem sealing is replaced under pressure without damaging the particular elements.
- Thanks to the flexible coupling between the stem and the wedge the total loads are transmitted from the wedge onto the body and not on the stem and o-rings.

- The wedge gate valve build-in length: short acc. DIN 3202 F4,
long acc. DIN 3202 F5.
Cast steel wedge gate valves - long build-in only acc. DIN 2501 PN 10 and PN 16.
- Additional accessories:
-drive: hand - wheel or electric;
-stem extension rods: of constant or telescopically regulated length; -wedge gate valve case from cast iron.
All QUART 2000 wedge gate valves from ductile cast iron are covered with epoxy resin with the fluidization method, as recommended by Stowarzyszenie Ochrony Antykorozyjnej
[Anti-corrosion Protection Association] (GSK) and are marked with RAL quality certification logo.
At request, the wedge gate valves may be enamel-coated

RAL ZNAK JAKOŚCI
OCHRONY ANTYKOROZYJNEJ
ARMATURY I KSZTALTEK and the wedge rubberizing and seals may be made from EPDM.

## LEAK PROOF TESTS

Each manufactured wedge gate valve is subjected to leak proof tests:

| DN | PN <br> (bar) | Water wedge gate valve |  |  | Gas wedge gate valve |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $40-350$ | up to 16 | casing | lock | test | casing | lock |

## QUART 2000 WEDGE GATE VALVE

Wedge gate valve with mandrel extension
Wedge gate valve with electric drive

## LEAK PROOF TESTS

Each manufactured gate valve is subjected to leak proof tests

0

QUART 2000 WEDGE GATE VALVE
With PE outlet terminals
For water PN 10 and PN 16
Gas PN 4
DN 25 - DN 200

QUART 2000 WEDGE GATE VALVE PN 10 and PN 16 With bare terminals
For water and sewage
With soft sealing DN 80 - DN 300

QUART 2000 WEDGE GATE VALVE PN 10 and PN 25
Cast steel flange or with terminals for welding
For water and gas
With soft sealing
DN 40 - DN 300

QUART 2000 WEDGE GATE VALVE PN 10 and PN 16
With connection for PVC pipes
For water and sewage
with soft sealing
DN 50 - DN 200

QUART 2000 WEDGE GATE VALVE, flange F4, F5
For water, gas and sewage
PN 10 and PN 16,
With soft sealing,
DN 40 - DN 500

In process of start-up:

- QUART 2000 wedge gate valves with faucet and bare terminal
- QUART 2000 wedge gate valves with flange and bare terminal
